SovereignSeries™

*A New Generation
Architectural Style
High Performance
Designed for Asia*

Nulook Windows and Doors are tested in an Internationally Accredited New Zealand laboratory, using an independent testing engineer and comply with New Zealand Standards.

Many Home Owners want a home that pushes the boundaries of traditional design.

SovereignSeries™ gives you that. This architecturally styled suite has the high performance characteristics of commercial joinery, allowing you to create something truly special.

CREATE ATTRACTIVE OPENINGS

SovereignSeries™ lets you make the most of views and creates indoor/outdoor flow onto decks and patios. The window frames can support heavier glass panels than standard residential doors and windows.

CONTEMPORARY STYLING

The external flat-faced styling is in perfect harmony with modern architectural tastes. The concealed fixings, deep aluminium reveals and a choice of box mullions create a streamlined effect that integrates smoothly into your home design.

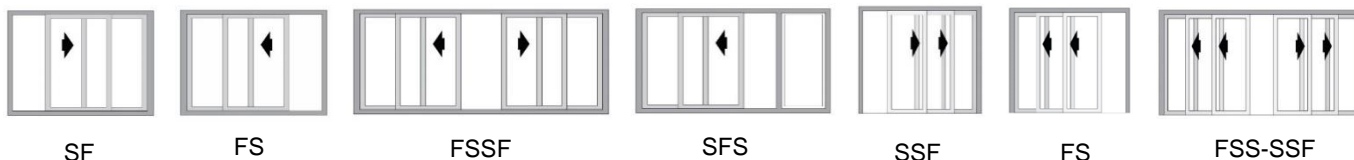

Sliding / Stacking Doors

Sliding doors are ideal for high flow entertainment areas or where wide openings are preferred for access to patios, decks and the outdoor spaces. Sliding doors do not slam in the wind and come in a wide range of configurations

Features

- Approximately 50% Opening Width / 66% for Stacking Door.
- Square styling and a flush sill design.
- Flush and Level Sill options available
- Square shaped overligh transom or mullion.
- Built-in Drainage and Condensation System.
- Concealed fixing (no unsightly screws).
- 36mm door panels can accommodate up to 24mm double glazing for improved insulation performance.
- Low profile sill threshold.
- Multiple Stacking up to 6 panels.

Design Options

Hinged Doors / French Doors

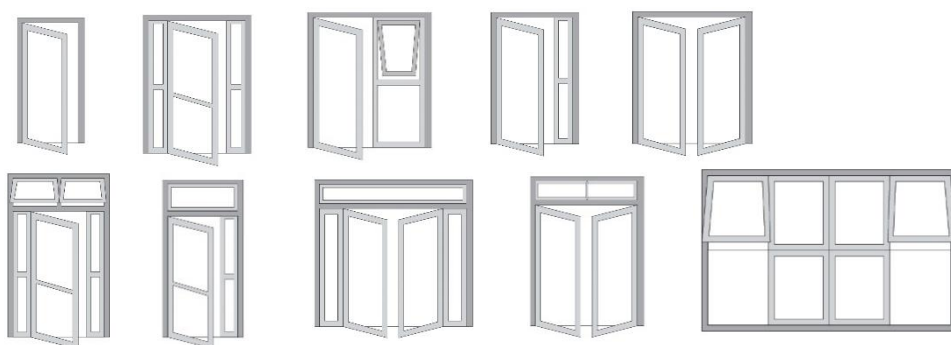

Hinged and French Doors are a practical and timeless design solution, ideal for living areas. They can complement any home and open easily to fold back against the walls, allowing excellent ventilation and light efficiency.

Features

- Open out hinged door frames feature a flush sill detail.
- Flexible glazing capability enabling optimal thermal glazing performance to 24mm.
- Can accommodate multi point locks.
- 180° opening capability.
- An overlight and sidelight system is available.
- Concealed fixing.
- Built-in Drainage and Condensation System.
- Colonial glazing or colonial bars optional.

Design Options

Bifold Doors & Windows

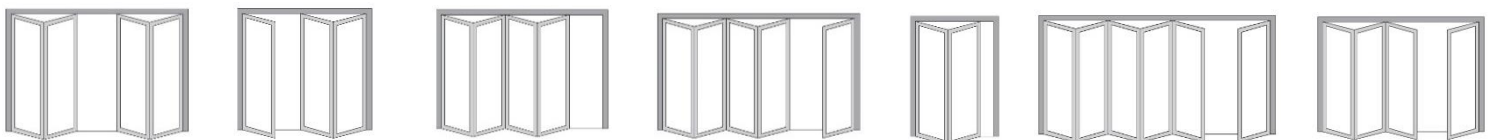

Bifold doors and windows are an elegant way to open up the view from patios and decks and achieve a flow from indoors to outdoors.

The doors have a low profile flush sill, which allows for easy cleaning and maintenance.

Features

- Almost 100% opening capability.
- Square styling and a flush sill design.
- Top rolling mechanism.
- Easy to clean and maintain.

Design Options

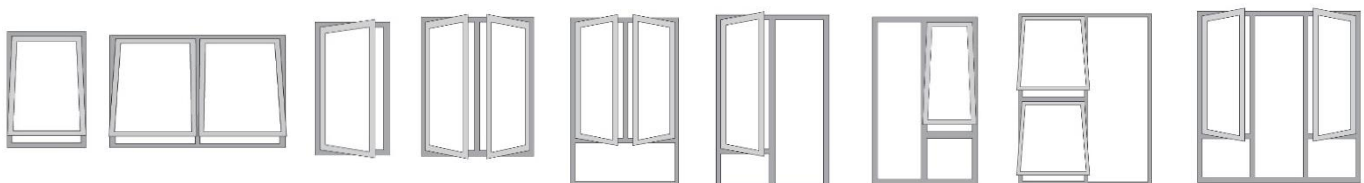

Awning / Casement / Fixed Window

Awning and Casement Windows are appropriate for both modern and traditional architecture. They are equal in terms of strength, weatherproofing and style. They are designed to maximize both light and the flow of air in a streamlined, elegant design.

Features

- Stylish appearance with excellent performance.
- Can accommodate up to 24mm double glazing for improved insulation performance.
- Can accommodate multi-point locks.
- Double casement sashes are available.
- Concealed fixing.
- Built-in Drainage and Condensation System.
- Colonial glazing or colonial bars optional.

The entrance way into a home provides the setting for your welcome and what is to follow inside – your design decisions affect the style and character of your home.

Stella Doors offer a wide range of attractive styles and design options for your entrance way. They suit traditional, modern or contemporary architecture. Doors can be standard or customized to suit. A wide range of colours and entrance hardware is available.

The Stellar Doors range offers classic and contemporary door styles and outstanding quality from extruded aluminium. They are durable and low maintenance.

Just as aluminium is accepted as the best exterior window and door solution, Stella Doors provides the best entrance door solution.

- No shrinking
- No splitting
- No swelling
- No leaking
- Low maintenance
- Stronger
- More Secure

Stella Doors help prevent unwanted intruders because Stella Doors are structurally stronger and more secure than conventional doors. Stella Doors can be manufactured with secure glazed glass inserts. A variety of secure locking mechanisms are available to suit your requirements.

HARDWARE for DOORS / WINDOWS

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience. As the world's leading lock specialist, ASSA ABLOY offers a complete range of door opening solutions.

INNOVATIVE MAGNETIC SCREENS

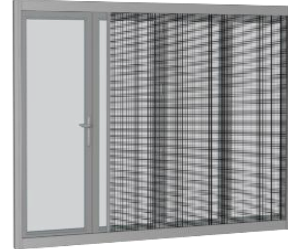

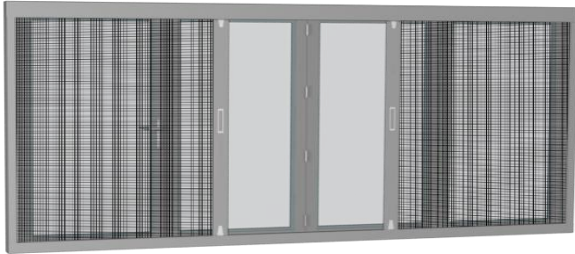

Freedom™ Magnetic screens are a discreet screen solution for all types of windows, and an effective screening alternative to unsightly aluminum fixed screens or for windows that are difficult to find screen solutions. The easy-to-use corner finger grip allows you to lift the screen from the magnetic strip to enable safe and easy cleaning. Available in a variety of colours to ensure they blend perfectly with your interior design. The Magnetic Screens are suitable for all sizes and types of windows. The magnetic strip can be attached to timber, aluminium, and PVC frames.

Features

- Magnetic insect screens are flexible and almost invisible.
- They blend perfectly for casement and awning windows requiring internal screens while still providing easy access to operate and clean your windows.
- Our Magnetic insect screens are the affordable insect screens for tropical conditions.
